# On the Subject of Eight Tiles Panic

*Endlich ein Grund zur Panik, endlich ein Grund – Los! Panik!.*

There is an alien invasion going on in the neighborhood.
To solve the module tap or hold 5 tiles in the correct order,
based on the chaos in the streets.

1. Figure out the course of the <u>main street</u> in the grid below.
Start at the arrow with the same number as the <u>last digit of the serial number</u>.
Move through the grid by crossing the borders labeled with this starting
number. The traced path is the main street and will always pass through 5 tiles.

Tiles that are not part of the main steet are considered side streets. If two or
more of them are orthogonally adjacent to each other, they connect to a single
side street.

2. Starting at the arrow, going tile by tile along the main street, decide if the
tile should be held down or tapped. Use the <u>Table: P8NIC</u> on the next page and the
symbols present on the tile to figure out a condition for each tile.

<u>**If the condition is true, hold the respective tile and release it after hearing a
zap sound. If the condition is false, tap (press and immediately release) the tile.**</u>

Pressing a tile out of order, pressing an already correctly pressed tile or
incorrectly holding / tapping a tile will result in a strike.

Table P8NIC: Tile Hold Conditions

A	L	H	C	P	Condition
X			X		There is no gun present on any side street.
X				X	There is a street with both an alien and a gun present.
X					There is a street with at least 3 aliens present.
	X		X		There are less than 3 batteries on the bomb.
	X			X	There are at least 3 aliens present on the module.
	X				There is a street with at least 1 alien but no cat present.
		X	X		There are more hamburgers than aliens present on the module.
		X		X	There is an indicator labeled 'BOB' on the bomb.
		X			There are at least 2 people present on the module.
			X		There are more cats than people present on the module.
				X	There is at least 1 gun present on the main street.
					The module isn't solved.

The "Present on the tile" columns above are: A, L, H, C, P.

Alien (A)	Laser Gun (L)	Hamburger (H)	Cat (C)	Person (P)
